**11 - What do you consider to be the strengths of this course?**

**Response Rate** 6/15 (40%)

- The strengths of the course are learning how to do research and learning about research. The course was helpful in these areas. I liked that we had a lot of time to finish our literature review and research paper with out too many other assignments due. This was fairly easy to keep up with and the instructions were clear.
- This class required you to think critically but it offered valuable information.
- Having all of the assignments on the calendar has been very beneficial to me. I prefer to plan ahead, so that has been nice.
- The course material is a strength.
- The instructor is a huge strength for this course! He is very knowledgeable and wants to see his students succeed. He always provides supplemental information for a topic if he sees we are struggling. He is responsive to messages and emails. He goes above and beyond to assist the students. He even set up a time where we could live chat with him as a group for anyone that needed help.
- The lectures add quite a bit to the lesson plan.

# Arkansas Tech University

## 2017-May

**Course:** 201720-PS3143TC5-22634: APPLIED PROFESSIONAL RESEARCH  
**Instructor:** Frederick Prasuhn \*  
**Response Rate:** 7/15 (46.67%)

### 12 - What constructive suggestions do you have for improving this course?

**Response Rate** 7/15 (46.67%)

- Lots of assignments due at the same time. The end of the semester was better than the beginning. I was only confused one time during the course and the instructor was understanding and helped me resolve the issues. The instructions for uploading the portfolio were confusing but the new video just posted is much better.
- Overall, this was a good class.
- Respond to student's questions and emails in a timely manner since the instructor is not available for office hours. 48 hours is not a good response time from a professor in an online course.
- It would be nice to have better group interaction.
- I would suggest that there not be two sections throughout the modules as this tends to bog down the student.
- none
- Try to get a better structure for the modules.

### 13 - Other comments?

**Response Rate** 3/15 (20%)

- N/A
- This course was tough and I think it was due to the amount of information and the content within the modules that made this course heavy in reading material.
- Great course, good instructor.

### 14 - The instructor was well prepared for the course.

Frederick Prasuhn
