19 - What were the strengths of this course?

Response Rate 3/14 (21.43%)

- Time management and getting my assignment done
- Proper spacing between assignments. A really good self-driven course, where the learner really needs to frequently visit the materials presented, and develop a sound assignment, discussion, or the like over time. The spacing between assignments, particularly the major ones, gives you plenty of time to more fully understand the material and construct projects.
- discussion boards

20 - Do you have any constructive suggestions on improving this course?

Response Rate 3/14 (21.43%)

- At times I thought the feedback was a little harsh but I know it was to make me a better student
- I would have liked more visual and auditory learning to be selected by the instructor.
- nope

Arkansas Tech University
